BPMJ is the leading international journal devoted to publishing articles that provide insight into the management and best practices of key business processes. It does this by staying at the leading edge of theoretical advances in the field, and illustrates the practical relevance of these through case studies and applied examples. The journal helps to build a deep appreciation of how to manage business processes through critical evaluations of the experience of others.

BPMJ is published six times a year. Interested readers may subscribe by going to the publisher’s website. Readers may also go to the Emerald site and buy and download specific articles. BPTrends will publish the Table of Contents of BPMJ each time BPMJ is published to allow BPTrends readers to determine if there are articles they should read.

The Contents of BPMJ Vol. 11, No. 5

Crafting a successful outsourcing vendor/client relationship
Lisa Webb, Justin Laborde (pp. 437-443)
Keywords: Buyer-seller relationships, Critical success factors, Outsourcing

Experimental assessment of an innovation knowledge system for decision support
Mark E. Nissen (pp. 444-475)
Keywords: Business process re-engineering, Industrial design, Innovation, Knowledge engineering, Software engineering
ArticleType: Research paper

Towards IS supported coordination in emergent business processes
Olivera Marjanovic (pp. 476-487)
Keywords: Information systems, Knowledge management, Process management
ArticleType: Research paper

Synchronous design of business processes and information systems using dynamic process modelling
George M. Giaglis, Vlatka Hlupic, Gert-Jan de Vreede, Alexander Verbraeck (pp. 488-500)
Keywords: Information systems, Modelling, Process management, Simulation
ArticleType: Research paper
Success and failure factors of adopting SAP in ERP system implementation
Vidyaranya B. Gargeya, Cydnee Brady (pp. 501-516)
Keywords: Critical success factors, Manufacturing resource planning
ArticleType: Research paper

Towards a workflow-based integration architecture for business networking
Diogo M.R. Ferreira, J.J. Pinto Ferreira (pp. 517-531)
Keywords: Information systems, Process management, Production scheduling
ArticleType: Research paper
